

Cardiovascular Physiology (Adult) On Demand

Sessions

Core Principles: Left Ventricular Systolic Function

Keith Walley

Core Principles: Right Heart Function

Cliff Greyson

Core Principles: Venous Return

Steven Hollenberg

Core Principles: Heart-Lung Interactions and Effects of Positive Pressure

Xavier Monnet

Questions and Panel Discussion

Keith Walley, MD, Cliff Greyson, Xavier Monnet

Hemodynamic Assessment: Intravascular Volume and Volume Responsiveness

Xavier Monnet

Hemodynamic Assessment: Diastolic Function

John Teerlink

Hemodynamic Assessment: Invasive Hemodynamic Monitoring

Keith Walley

Hemodynamic Management: Fluid Resuscitation

Xavier Monnet

Questions and Panel Discussion

John Teerlink, Keith Walley, Xavier Monnet

Hemodynamic Management: Vasoactive Medications

Cliff Greyson

Hemodynamic Management: Inotropic Therapy

John Teerlink

Hemodynamic Management: Mechanical Circulatory Support

Steven Hollenberg

Questions, Panel Discussion, and Course Evaluation

Steven Hollenberg, Cliff Greyson, Xavier Monnet, John Teerlink, Keith Walley
