

Advanced Critical Care Ultrasound Adult
Agenda

Objectives:

1. Demonstrate a foundation of advanced ultrasound knowledge
2. Practice advanced acquisition of high-quality images via hands-on exercises
3. Demonstrate advanced image interpretation and utilization of ultrasound as a diagnostic tool

Advanced Hemodynamic Measurements

Vidya K. Rao, MD

Advanced Evaluation of Left and Right Ventricular Systolic Function

Daniel W. Johnson, MD, FCCM

Diastology in the ICU

Michael J. Lanspa, MD, MS, FCCM

Pulmonary Edema and Pneumonia

Paul K. Mohabir, MD

Focused Echocardiography Evaluation in Life Support (FEEL) Algorithm and Clinical Cases

Nibras Bughrara, MD

Valvular Assessment in the Critically Ill

Eliot Fagley, MD

Focused Transesophageal Echocardiography (TEE)

John C. Klick, MD, FCCM

Tricks of the Trade

Paul K. Mohabir, MD

Pitfalls and Limitations of Echocardiography in the ICU

Sara Nikravan, MD

NeuroUltrasound

Aarti Sarwal, MD, FAAN, FNCS
